

# Bi-directional hanging door soft close(top-mounted)

- ① The height of the door=The height of the door opening-63mm
- ② The min door width  $\geq 550\text{mm}$
- ③ The max loading capacity is 35-60KG

Pls make sure the interior of track is clean before installing. Using half wet cloth or compressed air gun to clean the track after installing. Or the sliding performance would be influenced. (This instruction manual mainly explain how to adjust the door up and down and the position adjustment of actuator. Other installation is the same as normally.)

## Parts list
